EMPRESS JUNIOR ATHLETIC TOURNAMENT

On Friday, May 15, a number of representatives from the Oyen school participated in the Junior Athletic Tournament held at Empress.

Messrs. Wilkinson, Johnston, Morrison and Gillespie kindly provided cars to transport the students to Empress. Mr. Wilkinson and Archie Johnston accompanying the group, which consisted of the following students: Edna Johnston, Gertrude Charbonneau, Laura Charbonneau, Catherine Wright, Dorothy Love, Josephine Bredsen, Hazel Hallman, Alexander Wright, Russell Johnston, Louis Gillespie, Samuel Neil, Irl England, and Carlyle England.

In field events points were awarded on the following basis: 1st, 5 points; 2nd, 3 points; 3rd, 1 point. Oyen succeeded in "bring home the bacon" to the extent shown below.

Girls' Field Events

100 yards: 1st Oyen, Edna Johnston; 2nd, Oyen, Josephine Bredsen; 3rd, Empress.

220 yards: 1st, Oyen, Edna Johnston; 2nd, Empress; 3rd, Oyen, Laura Charbonneau.

200 yard relay: 1st, Empress; 2nd, Oyen, (Laura Charbonneau, Josephine Bredsen, Hazel Hallman and Edna Johnston).

High jump: 1st, Empress; 2nd, Empress; 3rd, Oyen.

Boys' Field Events

100 yards: 1st, Empress; 2nd, Russell Johnston; 3rd, Irl England.

220 yards: 1st, Empress; 2nd, Oyen, Irl England; 3rd Russell Johnston.

Half-mile relay: 1st, Oyen, (Irl England, Carlyle England, Louis Gillespie, Russell Johnston); 2nd, Empress.

High jump: 1st, Oyen, Russell Johnston; 2nd, Empress; 3rd, Empress.

Those who had anticipated entering the Tennis Tournament disappointed to find no opponents, the tennis courts at Empress being unfit for play.

New Pools Organizing

The three new provincial pools, for the co-operative marketing of dairy, livestock and poultry products, are now actively organizing. For the period of the membership drive, which is from June 8 to 28, over 500 meetings have been planned throughout the province.

Western Butter for the Orient

According to figures published recently, nearly two million pounds of butter were exported from Vancouver during 1924. The bulk of it went to the Orient. The figures were: Japan, 538,328 lbs.; China, 289,070 lbs.; Hong Kong, 20,536 lbs.; Philippines, 188,336 lbs.; United Kingdom, 767,872 lbs. The bulk of this butter came from Alberta. Alberta's total export of butter by all routes in 1924 was 4,100,000 lbs.

New Oil Refinery

A new oil refinery, the third to be established in Alberta, will be opened at Edmonton shortly by the Alberta Refineries, Ltd.

Many Join Wheat Pool

There are now 32,000 farmers in the Alberta Wheat Pool, according to a statement made by a director of the pool last week.

Third Fortnightly Crop Report

Issued by Department of Agriculture, Edmonton, Saturday, May 16, 1925

Seeding of wheat is practically completed throughout the province at this date, save in the territory immediately tributary to Edmonton, which appears to be somewhat later, and where from 50 to 75 per cent. of the wheat is in the ground. A few days more of the present favorable weather will see the completion of wheat seeding in this district.

Reports received indicate that the increase in wheat acreage over the province will probably be 10 per cent. Delay in spring operations due to backward weather in the more central and northern districts has led to considerable area of wheat being seeded on stubble, a larger area than usual being put in in this way.

Seeding of the coarse grains is well under way with from 30 to 30 per cent. completed.

The weather generally speaking during the past fortnight has been cool and backward, with frosts in certain localities and growth consequently has been slow. In some of the southern districts early sown wheat is up from two to four inches. Warmer weather has prevailed during the past few days, but there has been no precipitation to speak of in any locality since last report. Moisture conditions continue satisfactory however, there being sufficient in the soil to give good germination.

Pasture is improving rapidly, and stock is picking up in condition. A good deal of water is still lying in the low places in nearly every district in the province. Sloughs which have been dry for some years past are well filled.

In the southern districts there has been a large increase in the area given over to sweet clover, corn and alfalfa. In the Lethbridge district, planting of sugar beets is about completed. Percentage of winter killed wheat and rye is small.

No serious outbreak of grasshoppers is anticipated this season. Farmers, however, are urged to keep a sharp look-out for any outbreaks that may occur and report same to the department at Edmonton at once.

Specials

One lot of Misses and Children's Summer Hats.
Values as high as \$4.00 Special 15c
One lot Girls Hats Special 45c

A few Pairs Hurlbat Strap Shoes, size 6 to 10 1/2 Regular \$2.50 to \$2.90 Special \$1.65

CANADIAN NATIONAL RAILWAYS

AMENDMENT TO THE BUDGET IS EASILY DEFEATED

Ottawa.—The Progressive amendment to the budget, calling for a downward revision of the tariff, was defeated in the house by 110 to 23, a government majority of 77.

Voting with the government members in the negative were the 11 Conservatives present and 14 Progressives and Independents. The 14 were: Messrs. Kennedy, of Glenora; McDonald, of Teulon; Shaw, West Calgary; Fred Johnston, Last Mountain; McCulloch, Harrisonburg; Pritchard, North Wellington; Reid, Frontenac; Jelliff, of Lethbridge; Resnault, of Lethbridge; Prince Edward Island; Black, of Huron; Neill, of Connor; McBride, of Cariboo; Humphries, of Kootenay; and Elder, of South Bruce.

The 23 who voted for the amendment comprised 31 Progressives, including Robert Foster, Progressive leader, H. T. A. Crenier, and the two Labor members.

As debate on the main budget motion had been the longest in the history of the Canadian Parliament, so debate on the amendment was one of the shortest on record.

Sir Rider Haggard Dead

Celebrated British Author Was Also Expert African Explorer

London.—Sir H. Rider Haggard, the author, died here May 14.

Sir Henry Rider Haggard was born in Bradstreet, Norfolk, June 22, 1856. He engaged in government service in South Africa, and while a young man became celebrated as a writer of romance and tales of adventure with African backgrounds. From 1882 to 1892, scarcely a year passed without publication of a novel by him.

Although he achieved a world reputation as a maker of fiction, it was known to but few that the real life work of Sir Rider was in the field of practical agriculture, in which he gained the highest reputation among experts.

Condemn Reparation Plan

German Officials Declare It Is Incompatible of Fulfillment

Berlin.—The National Federation of German officials has declared that the reparations plan is incompatible with the fulfillment of the "Treaty of Versailles," and of "serious damage" to German industrial life, besides the materializing and enacting of the German people.

The convention criticized the government for not sending to the reparations a declaration of Germany's war guilt.

The Federation opposed the reparations plan proposed by the reparations commission, but "means not only the sacrifice of our nationals in the coded territories, but voluntary recognition of the shameful Treaty of Versailles."

Revision of Grain Act

Pool Agency Confers With Canadian Council of Agriculture

Winnipeg.—Directors of the central selling agency of the provincial wheat pools adjourned their monthly business meeting and received in conference representatives of the Canadian council of agriculture.

Discussions at the meeting centered in drawing up recommendations whereby the present Canadian Grain Act could be amended and the present form, under which it has been declared ultra vires, improved.

Canadian Wine Theological Prize

New Haven, Conn.—Prof. W. C. McIntosh, a Canadian and graduate of McMaster University, Toronto, has been awarded the Jones prize of \$5,000, which is given once in five years by the Lake Forest University of Chicago for the best theological works. Prof. McIntosh is a member of the faculty of Yale Divinity School.

Urges Rural Credits

Ottawa.—A resolution urging the government to bring down legislation, at the present session of parliament, for the establishment of a national rural credit system, was passed by the banking and commerce committee of the House of Commons by a large majority.

French Aviator Killed

Charlottesville, France.—Lieut. Henri Simon met a spectacular death here, when his metal glider collapsed while he was performing acrobatic stunts over this city. His gliding machine had killed a Chartraine famous cathedral and was dashed to fragments in the market square.

M. N. 1077

U.S. Would Limit Spread in Grain Quotations

Washington.—Adoption of rules by the grain exchange limiting the spread in daily quotations was recommended by Secretary Jardine as a means of preventing excessive fluctuations and unreasonable manipulation of grain prices. The recommendations were contained in a report by the preliminary investigation by the department of agriculture, under the Grain Futures Act, of the sharp fluctuation in future grain quotations on the Chicago board of trade, beginning in January.

Suggested Relief For Unemployment

Britain Should Co-operate With Dominion For Railroad Orders
London.—That the British Government should co-operate with the overseas dominions to secure a regular flow of orders for bridges, steel rails and all kinds of heavy engineering equipment, rather than to relieve the grave unemployment existing in English and Scottish yards, was the proposal made to Premier Stanley Baldwin at a conference with J. T. Brownlie, president of the Amalgamated Engineering Union, which seems likely to be adopted.

The state is ready to give support to any practical scheme for the relief of this unemployment, said Mr. Baldwin, and the British government should co-operate financially with the dominions, while at the same time giving some form of limited subsidy to the traders here in an effort to stimulate empire development, it was urged.

Saskatchewan Wheat Pool

Big Membership Campaign Is Planned

To Commence Shortly
Regina, Sask.—Following any preliminary efforts in the management of the Saskatchewan wheat pool, immediately the provincial elections are over, will start a province-wide movement to obtain 5,000 additional acres under contract. Organization for the effort has been started at the head office in Regina. At the same time it will attempt to obtain the necessary percentage of acreage for the concrete pool, which will operate for the first time this year. The initial move to obtain grain acreage is the making of the contracts to all wheat pool holders.

Anti-Soviet Chief Ends Life

Denied Release From Prison Through Himself From Cell Window

Moscow.—A recently released there was little chance of his liberation, General Boris Savinkov, notorious and Bolshevik leader, has committed suicide by throwing himself from the window of his cell. He was serving a long term on a multitude of charges growing out of his seven years' struggle against the Soviet regime.

His trial, on August 28, 1924, at Moscow, was not prosecuted for no defense, constituted probably the most dramatic case that ever came before the revolutionary war tribunal.

Jelliffe Made Chairman

London.—Viscount Jelliffe, former naval commander and former governor-general of New Zealand, has accepted the chairmanship of the council of overseas settlement. The council was recently formed under the auspices of the Church of England for the dissemination of information with regard to opportunities for settler overseas and for the purpose of looking after the selection and welfare of emigrants.

Will Call Polar Ship "Peary"

Chicago.—Donald R. MacMillan, the Canadian-born leader of the proposed expedition to the North Pole, in which an attempt will be made this summer to reach the North Pole by aeroplane, has entered an official request to name his ship the Polar ship to Peary, in honor of the discoverer of the North Pole. The vessel is scheduled to leave Boston, June 17.

Fruit Growers Accept Proposition

Vernon, B.C.—The directors of the Associated Growers of a meeting here accepted the proposition from wholesale dealers of the province previously whereby 90 per cent. of the jobbing trade guaranteed full support in distribution of British Columbia fruit crop through the Associated Growers' own representatives.

Discuss Postal Salaries

Toronto, Ont.—Postmaster-General Hon. Charles Murphy has asked all branches of the postal service to send representatives to Ottawa to meet a sub-committee of the cabinet to discuss revision of salaries. It has been known here.

Voted For The Budget

J. FRED JOHNSTON, M.P.

For Last Mountain, who resigned his seat as a member of the Progressive party, as a result of voting for the budget in opposition to his leader.

Build New Elevators

Saskatchewan Wheat Pool Has Mapped Out Programme

Regina, Sask.—The Saskatchewan wheat pool has decided to build elevators at the following fifteen points: Balgonie, Indian Head, Dodsland, Kincaid, Wadena, Colville, North Battleford, Hudson, Yellowknife, Dulse, and Moosehide.

At none of these points, it was stated, is there a farm-owned elevator, and all have more than 10,000 acres under contract to the pool.

CONTINUE WORK OF ASSISTING ARMY VETERANS

Ottawa.—Some interesting figures on the cost of soldiers' re-establishment have been submitted to the house.

Not including the cost of administration, the department last year disbursed \$14,664,179 for pensions and re-establishment of veterans of the Great War. The cost of administration was \$2,485,945, or about 16 per cent. of the total disbursements.

In answer to a question, the department of soldiers' civil re-establishment has been abolished. Hon. H. S. Beach told the house there was no hope that the machinery of the department could soon be dispensed with.

For many years the payment of pensions, Canadian and Imperial, the providing of treatment, the supply of artificial limbs, and all other services handled by the department, are going on. Personally, said Dr. Beach, he did not intend to remain as minister of the department one moment longer than was required by the department.

Senate Vacancies

Government Awaiting Outcome of Proposed Provincial Convention

Ottawa.—The possibility that the proposed inter-provincial conference on senate reform might result in a reduction in the membership of the senate was suggested in the upper chamber as a reason for the delay in filling the seven vacant seats in the senate.

Answering, Ruel Dandurand, government leader, said that his intention was that the government had not filled the vacancies because it was awaiting the outcome of the proposed provincial convention on the senate.

Senator Leacock added that perhaps the approaching general election might have something to do with delay.

Will Use British Banks

London.—The Daily Telegraph reports that the Valian intends to make large financial deposits in Great Britain and that there is keen competition among the banks to secure his business. Before the war the Valian bank had large sums in Germany, and it is said to have suffered much loss through the depreciation of the mark.

Colonial Office in Britain

London.—The Ministry of dealing with the proposed recommendation of the colonial office, says it doubts if the word "colonial," in connection with the office, really offends the susceptibilities of the overseas dominions.

"This agitation about a mere name seems pathetic and shallow," the Post office says.

Estimates Smaller This Year

Ottawa.—A vote for \$21.50 covering salaries in the department of soldiers' civil re-establishment was passed in the house after considerable discussion. This year's estimate is \$7,220 less than last year's vote.

Canadian Chief Of Staff Sees Danger Of War

Ottawa.—Addressing a military gathering here, General J. H. MacBrien, Canadian chief of staff, said that the danger of war was not present.

"No thinking man can read the daily papers, make an examination of the frontiers in Europe, read of the trade rivalry between the United States and Japan, read of the huge immigration of Chinese into the United States, and not see the danger of war," the general said.

Industrial Disputes Act

Amended Act Passes House of Commons

Ottawa.—The "Industrial Disputes Act" (commonly known as the Lockout Act) went through all stages in the house. The bill was necessary by the decision of the prime minister which found the existing D.I. Act ultra vires, and is based on provincial jurisdiction. The purpose of the bill, generally speaking, is to limit the application of the act to matters not within the legislative jurisdiction of any province. There is a further provision for the limitation of the provisions of the act to matters not within the legislative jurisdiction of any province.

New Equipment For C.N.R.

President Thornton Says \$18,940,625

Ottawa.—Sir Henry Thornton, before the railway and shipping committee of the House of Commons, gave the figure from the 1925-1926 budget of the National Railways to be spent upon construction, betterment and equipment as \$18,940,625. New equipment, he said, to include 500 freight cars for carrying automobiles, five observation sleeping cars, and five passenger sleeping cars.

Sir Henry did not think the grand total of assets would be increased during the present fiscal year as during the past fiscal year.

Brand's Reply To Germany Courteous

British Foreign Office Received Copy Of Security Pact Proposal

Paris.—The British foreign office at London, a copy of his reply to Germany, regarding the German proposal for a security pact, he said, to include 500 freight cars for carrying automobiles, five observation sleeping cars, and five passenger sleeping cars.

Sir Henry did not think the grand total of assets would be increased during the present fiscal year as during the past fiscal year.

Traffic In Arms

To Exclude Armored Cars and Flame Throwers From Control

Geneva.—The military commission of the League of Nations International conference for the control of traffic in arms, which has been decided to recommend that armored cars, flame throwers and flame throwers be excluded from control. The full conference must pass upon the committee's recommendation.

Monmouth For Southern Alberta

Winnipeg.—The Monmouth board at a meeting here decided that a group of Monmouths, from the 13th recently arrived, will be settled in the sugar beet district of Southern Alberta. The meeting was held in the office of the Canadian Colonization Association. Many of the newcomers are experienced beet growers. They will have money, and paid their own fares to Canada.

Many Divorces Granted

Ottawa.—Thirty-one divorces have been granted in the last three months in the House of Commons recently. A score passed on motion stage, and a given final reading in the first three months. The rest were given second reading and went to the private bills committee.

Col. Dennistoun Resigns

London.—Lieut. Col. Ian Denison Dennistoun, whose former wife, Betty Muriel Dennistoun, had a breach of contract case against him recently in a trial which was marked by sensational testimony, has resigned his commission in the army. The reason is not given.

Delegation To Russia

London.—The British labor party has decided to accept the official Russian invitation to send a delegation to Russia to study the possibilities of an improvement in Anglo-Russian trade.

Declares Canada Is Interpreter Of Ideals

President of Toronto University Delivers Address In London

London.—Canada's position as the interpreter of ideals between the two English-speaking nations, Britain and the United States, featured the address of Sir Robert Falconer, president of the University of Toronto, delivered here at a large gathering provided over by the Lord Mayor of London.

Sir Robert declared it was evident Canada now held an extraordinary position of vantage, compared with even half a century ago. Britain regarded Canada with the pride of a mother over her first-born.

Canada, said the speaker, would perform her function of interpreter between the two nations, not of self-purposes, but by simply being true to herself and to her own life. Even so, the more important than that was the function which Canada might perform in interpreting to the United States the character of the British commonwealth.

U.S. Border Officers Increase Outposts

Making Effort to Halt Unlawful Entry Of Aliens

Minot, N.D., Immigration forces operating along the international boundary line have increased their posts considerably within the last few days in a determined effort to halt the unlawful entrance of aliens into the United States.

Not in many months, according to the official news, there have been so many foreigners attempting to plan to make unlawful entrance into the United States. However, with additional patrolmen available, and every foot of the border now covered by experienced men, it is believed the situation is well under control.

World Supply Is Sufficient Until Next Crop Is Marketed

Washington.—Indications of a smaller world wheat crop over on July 1 were published by the department of agriculture. The crop survey was completed on July 1, and it is believed that the world's needs will be met by the new crop coming upon the market, the department declared.

FRANCE'S DEBT TO BRITAIN AND U.S. TO BE SETTLED

Paris.—Officials of the French foreign office have indicated that a definite policy with regard to the settlement of France's debt to Britain and the United States had been decided upon.

The present relations between France and Britain are regarded here as about as satisfactory as they can be in a changing world. There has been a wave of approval in England recently due to the fact that the French debt to the United States is being repaid.

The French debt to the United States is being repaid. There has been a wave of approval in England recently due to the fact that the French debt to the United States is being repaid.

Second Reading Of Grain Act Postponed

Hon. Arthur Meighen Objected to Motion

Ottawa.—The bill amending the Canadian Grain Act, which was scheduled to come before the House of Commons, was delayed by a motion of opposition. When Hon. T. A. Lewis, minister of trade and commerce, undertook to introduce the bill for second reading, Mr. Meighen pointed out that the bill, which was a lengthy one, comprising 55 printed pages, had only been made available that morning and that a single member could possibly have read it.

The second reading was the most important stage and it was not in accordance with customary usage to hurry a bill through at that stage. The prime minister said that the government wished to get the bill before the committee on agriculture, but if there was objection to proceeding as usual, the bill would be held over, which was agreed.

Urgent Need of Research Work To Overcome Heavy Loss To Farmers From Plant Diseases

R. B. Archibald, director of experimental plant diseases, believes that there is urgent need of research and expert knowledge to overcome the losses sustained by farmers on account of lack of knowledge in controlling various plant diseases, he is reported to have said.

"The annual losses in our field crops reach a staggering total. For example, grain means cause an annual loss of upwards of \$12,000,000, and grain rusts cause an annual loss of some \$5,000,000 to \$6,000,000. Losses from potato diseases annually total from \$2,000,000 to \$5,000,000. Crop production is low in many areas, due to insufficient knowledge of moisture control or cultural methods, or due to the lack of suitable types and varieties of crops. The total amount of these losses is beyond calculation. Crops formerly grown successfully in some parts of Canada are now produced with low yields and high costs.

Production costs in nearly every field, orchard, garden or animal product, are far too high, due to low yields, inferior quality and to heavy and often controllable losses. Canada's property depends largely on agriculture, and in turn agricultural prosperity depends on our success in raising local markets and producing a large surplus of superior quality crops. Unless this surplus is produced at a cost per acre sufficiently low to compete with other exporting countries, then our export trade, in fact, our agricultural prosperity, is curtailed. If not done.

"There never was a time in Canada's history when careful investigation and experimentation in the many problems of production and loss, were so much needed nor offered such excellent returns.

"Agricultural experimentation and investigation are not the 'frills' add to of model farms, but actually constitute the persons and almost the entire work of these government-operated institutions."

Estimated Crop Acreage

May Be Slightly Less Than Last Year In Prairie Provinces

Crop census in the western provinces this year will be slightly less than last year, according to the first weekly report issued by the Canadian Pacific Railway. According to preliminary figures Manitoba will sow about 2,645,000 acres this year, Saskatchewan, 6,525,132; and Alberta, 2,721,829; making a total area of 12,191,957, which compares with 12,132,962 in 1923. Saskatchewan is the only province to show increased acreage this year. New breaking and settlement in the western provinces about the same as last year. Fall ploughing however, shows a considerable increase, amounting to 2,838,451, compared with 445,128 in 1923.

Dairy Export Trade

Amount of Dairy Products Exported Continue to Increase

Exports of dairy products from Canada last year continued to increase and the aggregate value rose from \$28,246,589 in 1922 to \$41,521,730 in 1923, according to a report of the federal department of agriculture. Cheese exported in 1923 amounted to 121,465,600 lbs., compared with 121,201,500 in 1922; condensed milk, 49,250,600 lbs., against 49,022,200 lbs.; butter, 22,312,929 lbs., compared with 12,312,711 lbs.; milk powder, 7,294,947 lbs., against 4,975,532; fresh cream, 2,388,522 gals., compared with 2,465,571 gals.; and eggs, 57,659 lbs., against 8,510 lbs.

Saskatchewan Poultry

743 Tons of Poultry Shipped From Province Last Year

Poultry (mainly broilers) and car lots in Saskatchewan during 1923 was almost double the total for 1922, according to returns furnished by the transportation branch of the bureau of statistics. In 1923 a total of 743 tons of poultry was shipped from the province, as compared with 380 tons the previous year.

Some Troubles Elsewhere

Canada's railway difficulties are not singular. Even in England with its closely knit transportation systems and its compact and well-developed nation, two of the most important railways are faced with the necessity of drastic economies in their operating costs. Mr. Braddy and Mr. Hogg, "Thornton don't carry all the transportation troubles of the world," Halifax Chronicle.

Out of the total population of 200 at St. John's, Nfld., 110 are 80 years of age or older.

W. N. U. 1577

Must Fill Prairies With British Settlers

Bishop Lloyd Says Foreign Immigration Is Much Faster

Saying that they are assured of a welcome, Bishop G. E. Lloyd, of Saskatchewan, Canada, in London to start a campaign to get British settlers for new lands in his diocese, much of which is peopled by other nationalities. To London Daily Mail reporter he said: "Ultimately we shall lose the three western provinces of Canada if we do not fill them with more British settlers. My diocese has agreed to pay a clergyman to represent us in London, for there must be emigration work done on the part of the church. The British stream of emigrants is too slow. It is not keeping pace with the foreign influx. Instead of the demoralizing delay, I would have 'settled' farms immediately. A few months on these would suffice to weed out the small proportion of men who would not succeed in Canada. If not, the average man wants no experience for a farm life."

The bishop has spent 40 years in Canada, and he says that a man from the British Isles will do well in the Dominion unless he is unfit or does not want to work.

May Take Canadian Horses

Prospect of Good Market in Germany Is Reported

With the help of the ban on horse importations into Germany, there may be a market for Canadian horses there, says the latest report of the department of trade and commerce. The class of animal wanted in Germany is of the farm type, will break and weighing about 1,400 to 1,500 pounds. These horses sell at present for about \$89 to \$90 marks or \$130.50 to \$214 per head. The previous day on horses is \$12.54 per head for animals valued less than 1,600 marks.

Less Fruit Grown

Canada's production of commercial fruits for the past year showed a decrease of \$10,912,113 in value, as compared with 1922, according to a statement issued by the bureau of statistics. The total value of fruits grown in 1923 was \$21,266,451, while the figures for 1922 reached \$32,178,564.

How the C.N.R. 1924 Dollar Was Spent

The full circle shown above represents the gross income dollar of the Canadian National Railways in 1924. The circle is divided into a number of segments each of which represents the proportion into which the dollar was broken up for expenditure in the directions named.

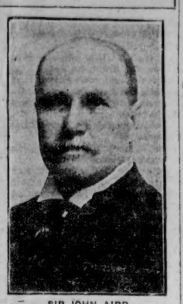

The total amount spent on these items, in dollars and cents, is as follows:

LABOR	\$127,216,937.40
Material	28,568,471.46
Supplies and other	25,849,441.36
Operating expenses	25,849,441.36
Taxes	4,589,622.36
Equipment and facility	4,589,622.36
Balance available to pay on first charges	6,000,521.00
Total	\$214,205,412.55

This chart is interesting in that it is a guide to the part which the dollar of the Canadian National Railways plays in the business of the country as a whole. It is not an idle dollar. Nearly all of it remains in circulation and finds its way into every channel of industry and commerce.

As can be seen, wages paid to employees constitute, by far, the greater portion of expenditure. There are almost 100,000 employees who get their share of the company's revenues twice a month, and this money, therefore, circulates from one end of Canada to

Conditions Good In The West

SIR JOHN AIRD, President and General Manager of the Canadian Bank of Commerce, who recently made a trip through the prairie provinces, and states that he found the general state of business in the west to be on a sound basis.

Franco-Canadian Trade

Permanent Exhibition of French Products May Be Placed At Montreal

Anticipating for greater development of Franco-Canadian trade, a number of French business leaders are favoring establishment in Montreal of a permanent exhibition of French products where Canadian buyers could examine the wares and give their orders to manufacturers' representatives. Henri Jans, president of the Chamber of Commerce Francaise de Montreal, declared on his return from Paris.

Winter Loss Was Small

Alberta Beekeepers' And Laying Good Foundation For Industry

Winter loss among all bee hives was but a trifle, according to reports received by H. T. Lathrop, of Lethbridge, secretary of the newly organized Alberta Beekeepers' Association. An experimental station at Lethbridge the winter loss was 3½ per cent, while other members of the association were as little as the winter loss was 3 per cent. The beekeepers' association executive are studying every phase of the business in the province and are determined to lay a broad foundation for this industry in Alberta.

Exports Of Flour

Value Of Flour Exported From Canada During Past Eight Months Exceeded Last Year

Exports of flour from Canada during the month of March amounted to 26,243 barrels, with a total value of \$1,972,554, which compares with 26,127,819 barrels, valued at \$1,712,607 in March, 1924. Total shipments of wheat flour for the eight months ending March 31 were 2,765,914 barrels, with a value of \$20,198,872, compared with 2,558,311 barrels valued at \$18,564,122 in the corresponding year ago.

Three Thousand Head From Alberta Going To Scottish Firm

H. P. Kennedy, president of the livestock producers of Alberta, recently declared that he had received an order for 3,000 Canadian cattle to be delivered next fall to a Scottish firm, and he pointed to this as proof that Canadian cattle were in demand in the Old Country and were receiving a preference over Irish cattle from Scotland. He stated that by June 27 his company will have shipped 10,000 cattle to the Old Country from Edmonton.

The Operator's Error

The United States department of agriculture has prepared a printed bulletin in saying: "The crop ranks third in importance and is usually considered the bumper harvest of the world and three per cent. is used for human consumption. The crop is subject to the ravages of insects, which are less and covered stems, stem rust and crown rust.

The trouble was that the Intertory operator occasionally hit the letter 'I' instead of the letter 'C' and turned a treatise on oats into oats.

Beekeepers In Manitoba

The 1,800 beekeepers in the province of Manitoba with 25,113 colonies, produced 2,500,000 pounds of honey worth \$135,000 in 1923, according to a report issued by the provincial department of agriculture.

Increased Population Would Solve Many of the Problems Now Facing the Dominion

Canadian Magnesite For England

British Steel Makers Now Using Product From Canada

Still another Canadian mineral is making good in the British market. Shipments of dead-burned magnesite have recently been made from the Grosvenor magnesite mines to British steel makers. Due to the lowering of ocean freight charges and the improvement in exchange rates, the Canadian product is being laid down at a price to meet the competition of the Eastern European magnesite.

The shipping magnesite mines are situated in Grenville township, Argenteau county, north of the Ottawa River, about midway between Ottawa and Montreal. Magnesite was discovered in this district in 1905, but it was not until 1909 that mining was commenced. Production was small, however, but with the shutting off of European supplies by the war, a rapid development took place. A large output of crude, caustic and dead-burned magnesite was made available, a considerable quantity of which was marketed in the United States. It was used principally in the manufacture of crucibles, bricks and an lining for blast furnaces. The product is reported to have given good results; so much so that Canadian steel makers are continuing to use the application of the higher customs tariff has, however, that Canadian magnesite is out of the United States markets.

World Competed For Order

Soviet Russia Paid Canadian Firm \$100,000,000 For Flour

A world's record order was completed at Montreal with the handling of the last of 100,000 tons of Soviet Russia. The order was filled by a Canadian mill and was the equivalent of 144,000 tons.

The order was made through the New York agency of the Soviet Government. The completion of the significant order is said to have accelerated the changing of hands of over \$100,000,000, which was paid over to the Canadian firm.

Nine of the Maple Leaf Company's mills, situated at Medicine Hat, Brandon, Winnipeg, Port Arthur, Toronto and other cities, have been kept busy night and day since the order was received. The mills in view of the urgency of the order was required, other mills at Moose Jaw, St. Boniface, Melfort, Stratford, St. Thomas and Montreal were also called into service.

Canada won the order in competition with the world.

Would Out British Tongue

Deliberate Attempt By German Lines Says C.P.R. Official

That conditions approximating "rate war" prevailed among the steamship lines carrying traffic westward from European ports to Canada and the United States, was stated at Ottawa before the special parliamentary committee on ocean rates by W. T. Marlow, general foreign freight agent of the Canadian Pacific Railway.

Mr. Marlow expressed the opinion that "there is a deliberate attempt on the part of the German lines to try and out British tonnage."

Saskatchewan Butler

Considerable Increase In Production Is Shown By Figures Presented

Creamery butter production in Saskatchewan during March amounted to 61,432 pounds, as compared with 61,432 pounds in the previous month, according to a report issued by the provincial department of agriculture. Production on creamery farms for the year amounted to 1,317,551 lbs., compared with 1,683,939 lbs. in the corresponding quarter of the previous year, an increase of 12.3 per cent.

Thought He Was Working

The trouble was that the Intertory operator occasionally hit the letter 'I' instead of the letter 'C' and turned a treatise on oats into oats.

When a Man Tells You That the Greatest Happiness Is Found in Poverty, Remind Him of What David Said in His Psalm

Many settlers believe that the best hour.

"We are short on population, here on taxation and legislation." That is how Mr. J. H. Macdonald, general manager of the Canadian Bank of Commerce, describes the position of Canada as reported by the Manitoba Free Press.

His remarks on population, legislation and taxation came as the result of a question as to his opinion on the best solution for the railway problem with which Canada is faced. Mr. John believes that an addition during the next few years of five millions to Canada's population will settle the question and that with federal and provincial governments and railways working harmoniously together it should not be impossible to reach that figure. However, he remarked a journey through Canada was convincing proof to the most pessimistic of the country's inherent stability. "No, it is certainly not going to the buyers," he said.

General conditions in Western Canada, Mr. John observed, are perhaps as bright as in the east, with the exception of Ontario. The manufacturing sectors are slightly depressed, although the retail business is showing improvement. The depression in manufacturing was due more to over development during and immediately following the war than any other cause in the industry, which is producing and consuming population would speedily put the manufacturing on a substantial basis.

Said To Be Largest Of Its Kind In The World

Munich was on May 5 with her streets again bedagged and thronged with visitors from all parts of the world to witness the official opening of the Deutsche Museum, construction of which was begun before the war. The museum building is said to be the largest of its kind in the world.

Several numbers of the cabinet at present, the economy, Chancellor Luther coming from Berlin by aeroplane.

Watch Your Daughter

Chatham, Ont.—"I gave Dr. Pierce's Favorite Prescription to my daughter, and it did her a world of good. She had always been delicate, and functional disturbances and was very nervous and weak. She also had a great deal of trouble with her stomach. But after I began giving her the Favorite Prescription she did not suffer, her nerves were quiet, she began to get stronger and finally gained weight, and is healthy, robust, and happy. And what I am sure of, she did not get any other medicine, but only Dr. Pierce's Favorite Prescription, and it did her a world of good."

—Mrs. Fred Crounham, 30 Adelaide St. E., Chatham, Ont.

This prescription is made in Dr. Pierce's Laboratory in Bridgeburg, Ont. Send 10 cents there in 10¢ with a full package of the tablets.

Canada Leads the Way

Opening Doors of Britain For Import of All Cattle

Canada, having entered in 1922 an entry into the United Kingdom for her sheep, has been intent for the wider opening of the door to include pedigree stock. It can scarcely be imagined that the old-established herds of Scotland and England will draw an infusion of blood from the folds or the herds of younger Canada; what is more apparent in the insistence of the western dominion is to drive the thin edge of the wedge for a wide open door at all the ports of Britain for the handling of all classes of cattle—pure, fat and pedigree. Pressure in that direction is not without its bearing on the cattle trade of South Africa or Rhodesia. It would mean that when the day arrives for the export of store cattle from these shores they would be accompanied by the necessary evidence of clean health, have had to the live cattle markets of Britain—Hull—Hull Chronicle.

SAUL BEGINS HIS GREAT CAREER

Golden Text: I determined not to know anything among you, save Jesus Christ, and Him crucified. 1 Cor. 2:2.

Lesson: Acts 9:20-31.

Devotional Reading: Joshua 1:9.

The Text Explained and Illumined

1. Paul Proclaims Christ at Damascus, verses 20-22. Upon his return from Arabia (see The Historical Background), Paul joined the circle of disciples at Damascus and proclaimed Jesus to be the Son of God. His bold preaching greatly amazed the Jewish authorities, who knew what his course had been at Jerusalem and what his purpose had been in coming to Damascus. But Paul's power as a preacher for Christ increased, and he continued the Jews, proving that this is the Christ. "The somewhat unusual Greek word for proving means literally putting together, and so is used in the putting together of arguments."

2. Paul's Escape From His Enemies at Damascus, verses 23-25. The defeated Jews plotted to kill Paul, and he became known to him. Learning that the Jews were keeping watch and night at the city gate to prevent "and from leaving the city alive, the Christian disciples lowered him in a basket over the city wall, letting the basket down from the window of the house built against the wall or top of the wall. In some what similar fashion the spies escaped from Jericho, Joshua 2:15.

3. Athina Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely spreading a stronger foothold and is in danger of stronger and yet stronger attacks. Dr. J. K. Kelly's Asthma Remedy taken early, before the condition becomes chronic and saves hours of suffering.

4. Saskatchewan Income Tax. Saskatchewan pays less income tax than those of the other two prairie provinces. In answer to a question in the House of Commons, it was stated that the total amount collected in federal income tax in the fiscal year just ended, was: Manitoba, \$3,772,689; Saskatchewan, \$3,772,689; Alberta, \$1,152,511.

5. Perfumed Water Is Sold in Paris at the most fashionable restaurants.

6. The total amount collected in federal income tax in the fiscal year just ended, was: Manitoba, \$3,772,689; Saskatchewan, \$3,772,689; Alberta, \$1,152,511.

7. The total amount collected in federal income tax in the fiscal year just ended, was: Manitoba, \$3,772,689; Saskatchewan, \$3,772,689; Alberta, \$1,152,511.

Learning that the Jews were keeping watch and night at the city gate to prevent "and from leaving the city alive, the Christian disciples lowered him in a basket over the

First Inter-Provincial School

The first inter-provincial school to be established in the west will be opened at Lloydminster, which town is directly on the border line between Alberta and Saskatchewan. The two provinces will jointly contribute to the support of the school.

Many Tourists Visit Rockies

The season of 1924 saw more than 90,000 tourists visit the Rocky Mountain National Park, according to figures recently made public. This was an increase of about 20,000 over the previous year.

Idaho Teachers Coming

According to word received in Edmonton, a party of Idaho teachers plan to motor to Alberta during June, visiting Lethbridge, Calgary and Edmonton, as well as other points in the West.

Much Corn Being Planted

Southern Alberta farmers are going in for corn planting on a greater scale than ever this summer. Last year it was estimated that 62,000 acres were in corn. The total will probably reach 100,000 acres this year. Seed corn

Don't forget the golf tournament on Monday, preparations for the day are practically complete.

For 27 plots is being sent out from Lethbridge and there is expected to be a splendid showing for the corn show which will be held at Lethbridge in November.

Women's Institute Convention

The annual convention of the Alberta Women's Institute will be held at the University in Edmonton on May 26, 27, 28 and 29. Conference of the advisory board will be held Wednesday morning, May 26, and in the afternoon the advisory board will meet the constituency convocations. Mrs. J. N. Beaubien, of Champion, is president of the convention. The program for the convention includes several prominent speakers.

About Town and Country

Clean up! Paint up!

Victoria Day (May 24) falling on a Sunday this year, will be celebrated on Monday, May 25. All stores will be closed.

Born—To Mr. and Mrs. G. McKinstry of Oyen, on May 17, at Oyen Hospital, a son.

Death—To Mr. and Mrs. John Hunt of Oyen on Tuesday, May 19, a son.

Dr. E. B. Jenkins, of the Department of Public Health, was an Oyen visitor last Monday. Dr. Jenkins very strongly urges the use of Toxin-antitoxin for immunity from Diphtheria.

Mrs. Arthur Wade, who accompanied her sister-in-law to Calgary last week, returned to Oyen last Monday.

Mr. and Mrs. Andrew Anderson and daughter Helen, of Fogelvik Farm, north of Sibbald, were town visitors last Friday.

R. C. Hess announces that Robinson's Mill will be operated for some time by P. D. Hess.

Mike Skappak of Acadia Valley appeared before Magistrate Peck last Saturday for an infringement of the Motor Vehicles Act, and was fined \$5.00 and costs (amounting to \$5.00) for driving his car without license number plates for 1925.

Ernie Smith of Benton was brought into Oyen Hospital yesterday suffering from a painfully lacerated leg.

Nels Anderson who had his leg broken last week, is reported to be making satisfactory progress at Oyen Hospital.

CARD OF THANKS

Mr. and Mrs. A. W. Sutherland desire to thank all friends for kindness extended during their recent bereavement.

On Sunday evening next Daniel Macgregor, will continue his course of Lectures on the Tropics. The subject will be "The Signs of the Times" as indicative of the near coming of The Son of Man. Service starts at 8 p.m. sharp. All are Welcome.

Mr. C. W. Ostrander, has received word of the death of his daughter-in-law, Mrs. Fred Ostrander, after a prolonged illness. The deceased lady was about thirty-five years of age and leaves to mourn her loss, her husband, who is totally blind and two tiny daughters. Mr. and Mrs. Ostrander, paid a short visit to Oyen last summer just before Mr. Ostrander lost his sight.

The girls baseball team of Sibbald will give a dance on Wednesday, May 27, in Ball's Hall. Music by Shuttleworth and Youell.

The death of Jean Sutherland, daughter of Mr. and Mrs. A. W. Sutherland, occurred last Saturday after a lingering illness. A funeral service was held at Spring Valley Church on Monday afternoon, in interment following at Sunnydale Cemetery.

Rev. C. R. Corcoran is attending a convention in Edmonton this week.

Sittings of the District Court

The appeals of John Brezden and John Snigalsky, recently convicted for infringement of the Liquor Act, were heard before Judge Stewart in Oyen yesterday. Each case was dismissed.

The appeal of J. W. Bredin of Cereval (A Public Health Act case) is being heard today before Judge Stewart.

The Tom Lafferty appeal (Common Assault case) will be heard this afternoon.

At the time of going to press the Bredin case had not been concluded.

Sibbald Druggist Gets 2 Months

Martin Hayes, who has been operating the Sibbald Drug Store, was tried before Police Magistrate O'Conner of Drumheller, at Sibbald, last Saturday. A fine of \$300 and costs or two months with hard labor or in goal, was the sentence handed out. Hayes went to Lethbridge.

The first indoor ball game of the season was played at the new ball park on Railway Avenue, last Wednesday, between teams representing the West and East sides of Main Street. The game was well contested except in one inning when this column was put in to pitch. (Base runners became so exhausted that they had to quit), and the game went on the blink, the Westside winning by a large margin. After this try-out, a snappy game was played at the school grounds the following evening, the Eastside winning by a margin of five runs. Another game was played on Monday evening at the Railway Avenue "ballpark" when the Eastside were outclassed and fell easy prey to the poppy West side. There will be a game to night between the Westside and the High School Hoys.

LEGAL NOTICE

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of William Leslie Carr, late of Vancouver, British Columbia, deceased.

Notice is hereby given that all persons having claims upon the Estate of the above-named William Leslie Carr, who died on the 18th day of December 1923, are required to file with the undersigned by the 8th day of July 1925 a full statement duly verified of their claims, and of any securities held by them, and that after that date the executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his knowledge. Dated this 18th day of May 1925.

FOURTH ANNUAL TOUR TO THE PACIFIC COAST

Special Train from Winnipeg via Canadian National Railways. Entertainment Provided for at Various Points of Interest En Route.

PERSONALLY—CONDUCTED

Personally conducted tours offer the best opportunity for familiarizing oneself with the country traversed. This applies to our own country as well as to the other settled countries of Europe. Canadian National Railways has, for many years, commencing immediately after the close of school for the summer holidays, conducted special parties to the Pacific Coast, via Prince Rupert. The tour this year which will be the fourth will again commence at Winnipeg, from which point a special train of modern sleeping car equipment, dining car and radio observation car, will leave July 6th. After stopping at various points of interest, the train will arrive at Prince Rupert on July 11th. At this latter point, the party will embark on a palatial steamship for a cruise of 450 miles through the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver those who desire to make a trip to Victoria may have their tickets read "Victoria" as their destination with out any additional cost.

This tour is an outing that appeals strongly to teachers as well as to professional men, and business men and women.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour, including the cost, choice of routes returning, etc.

billiards

a fine after-meal
exercise

As a mild form of exercise after lunch or after dinner, billiards cannot be excelled. Billiards brings into play practically every muscle of the body. The bending, twisting, leaning and stooping required to make various shots is a wonderful aid to digestion.

Equipped with Brunswick tables and accessories—the world's finest billiard equipment—our recreation room offers excellent opportunities for the enjoyment of this most fascinating game.

Come in during lunch hour and try billiards. Note the wonderful relaxation that even one short game will give.
